HORRIBLY CRUEL, SAYS HIS PETITION

The Rev. F. W. Hawley Tells
About Horserwhipping

Five Men Took Turns Beating Him
Until They Were Exhausted
With Exercise.

IS NOW CONFINED TO HIS BED.

As a sequel to the horse whipping affair at Fulton several weeks ago, suit has been filed in the United States court by the Rev. F. W. Hawley for \$100,000 damages against W. W. Meadows, H. T. Smith, H. F. Oliver, James White, Dick Thomas, Dr. George Gorley, prominent citizens of Fulton. Meadows has filed a suit in the state court at Fulton for \$100,000 damages against the Rev. F. W. Hawley, on the ground that Hawley alienated the affections of his wife.

The Rev. F. W. Hawley was the pastor of the Presbyterian church at Fulton and had apartments at the hotel of Mr. Meadows. One night six weeks ago when the Rev. Mr. Hawley returned to Fulton he was taken at the station and whipped with horse whips. The affair created a sensation, and now there is a divorce suit pending between Mr. and Mrs. W. W. Meadows.

As told in the petition the story is that the Rev. F. W. Hawley is a resident of Charlotte, N. C., and that on the night of June 10 between the hours of 12 o'clock midnight and 1 o'clock in the morning he alighted at the regular station at Fulton as a passenger and started for his hotel. Before his arrival, he says the defendants wrongfully, maliciously and unlawfully confederated and after he had alighted, in the presence of many passengers, wrongfully assaulted him, deprived him of his liberty, placed him in irons and forced him to march down a public street in Fulton.

After marching, says the petition, a halt was made in the street, and while the Rev. Mr. Hawley was in irons the defendants by force tied his hands and feet, and with the exception of a thin undershirt, stripped him of his clothes. With whale bone horse or buggy whips they took turns whipping him. When one was exhausted another would take the whip and whip Hawley. Hawley says they kicked him, and beat him on the legs, stomach, back and breast until they were physically exhausted or a whip was worn out. Then they would rest for recuperation and to get a new whip.

Became Unconscious.
During the whipping he says they cursed him, and said they intended to kill him, and he fully believed they would. Finally he became unconscious from the pain and cruelty. He says the defendant knocked him down, kicked him and bruised him with their fists, sticks and bludgeons until he was injured internally and externally.

Blows were applied with such force as to make deep gashes, and below his knees to his neck he was badly injured. From the loss of blood he was so weakened he could not walk. At present he says the bruises have not healed, and that his health has been impaired and permanently injured. Large and unsightly scars are still on parts of his body from the blows, and he suffers pains in his head and breast. He has been confined to his bed for weeks, and has expended \$500 for medical attention.

Judge Robbins and Gus Thomas of Mayfield, and Shelbourn & Smith of Clinton, are the attorneys for the Rev. Mr. Hawley.

Oliver was at one time tax supervisor for this district and Smith is a prominent lawyer of Fulton.

AN ELECTRIC STORM AT SHARP TUESDAY NIGHT

Sharp, Marshall county, July 24.—(Special)—Lightning struck a mare in Mr. Frank Hall's field near here yesterday afternoon killing her instantly. The mare was loose and running about the field. She was a valuable one, highly prized by Mr. Hall.

Good Rain.
The rain yesterday afternoon in this section was general and did much for crops. Farmers are elated over its visitation.

Will Phelps Shocked.
Lightning struck the house in which Will Phelps, 80 years old, was seated yesterday afternoon during the rain and shocked him so badly that he fell unconscious. Phelps was leaning against the wall in the chair, talking, when the lightning followed a conductor and struck him. Today he is better.

WEATHER FORECAST.

Fair tonight and Wednesday. Warmer east portion tonight. Highest temperature yesterday, 101; lowest today, 80.

COLUMBIA DISASTER.

San Francisco, July 24.—Formal inquiry into the loss of the steamship Columbia with almost 100 lives will be begun as soon as witnesses can be gathered for a hearing. Independent investigations are to be conducted by the state and federal authorities and underwriters of the steamship company.

STRIKES.

Washington, July 24.—More strikes succeed than fail, and the most successful ones are those called by organized labor, so the department of commerce and labor has ascertained, after a digestion of labor statistics gathered during the last 25 years. Of all strikes called in that period employees won all demands in 48 per cent, and partly in fifteen per cent more.

SUBMARINES.

Washington, July 24.—Action of the navy department just announced, installing submarine boats as part of vessels, is causing much comment in naval circles. A new signalling method is to be used on submarine boats, consisting of a bell-roof high pitch, that will carry to a depth of more than 100 feet.

G. W. JOHNSON.

Duluth, July 24.—Governor Johnson arrived today to take action in the strike of miners. He says while he does not wish to call troops into the district, will do so if requested by the sheriff. Twelve thousand miners are in the district.

INHUMAN.

Meridian, Conn., July 24.—Annie Steink, 12 years old, is under arrest, charged with deliberately setting fire to the clothing of a baby in her charge, because the child took so much of her time, she could not play. The baby died after suffering terrible agony.

P. O. ROBBERY.

Marengo, Ind., July 24.—The postoffice was robbed last night of a thousand dollars worth of stamps and money and four hundred dollars belonging to Miss Anna Turner, deputy postmistress.

SUICIDE.

Chicago, July 24.—George B. Ross, formerly manager of the New Southern hotel, and member of the Chicago Athletic club, committed suicide last night in his apartments in the club house. His body was found today with a bullet hole behind the right ear. It is supposed he has been despondent over business propositions.

OYSTER BAY.

Oyster Bay, July 24.—President Roosevelt is holding a conference today with Chairman Wilcox of the New York public utilities committee. Other guests are Lucius B. Smith, of Indianapolis, and Langdon Warner, of Boston.

WRECK.

Greenville, Pa., July 24.—One man was killed, five persons badly injured and a dozen slightly hurt here last night in a head-on collision on the Bessemer & Lake Erie, between a passenger train, carrying 200 people to a moonlight picnic at Conant lake, and a light engine. The wreck was due to a misunderstanding of orders.

GRAIN MARKET.

Cincinnati, July 24.—Wheat, new, 89; corn, 57 1-2; oats, 48.

PROHIBITION.

Atlanta, Ga., July 24.—Battle for absolute prohibition in Georgia is being fought today. Speeches are being made in the house. The vote probably will be taken tonight. The senate has passed the bill. The governor will sign it.

CLERK ARRESTED AS AN EMBEZZLER

"Billy" Semonin Owes State
\$50,000, is Charged

Jefferson County Official, Just Deposed, Gets in Bad With State Auditor.

SAYS HE IS ONLY \$20,000 BACK.

Louisville, Ky., July 24.—William J. Semonin, retiring county clerk, was arrested last evening on a charge of embezzlement, it being alleged that he is short in his accounts as clerk of Jefferson county in a sum approximating from \$45,000 to \$50,000.

The arrest, which was made at the instance of Mayor Bingham, caused a tremendous sensation. Mr. Semonin furnished bond in the sum of \$25,000 within a short time after his arrest.

Semonin was one of the officials whose office was declared vacant by the court of appeals in deciding the election contest cases. He was elected as a Democrat. When his successor, Phil B. Thompson, was appointed a few days ago the accounts of the office were checked up, with the result that the head bookkeeper this afternoon declared that there was a shortage of over \$45,000. There had been rumors of a shortage for two years, but the books of State Auditor Hager, when examined, showed Semonin's accounts with the state to be correct up until June 1, 1907.

When Semonin's successor was appointed the former had just mailed a check for \$15,000 to the state auditor's office for the month of June. Payment on this was refused by the bank on which it was drawn, and Mr. Semonin declared publicly that he had stopped payment when he found he was not to be retained in office, his idea being to have all accounts checked up and to settle in full with the state on his retirement.

When interviewed he stated emphatically that a full examination of the books would show that he did not owe the state over \$22,000, of the amount of his collections for June and July, which he had the legal right to withhold until he had been given his discharge, and which will be paid in full. There was no shortage in the legal or moral sense of the word, he declared.

TWO WORKMEN INJURED AT OLD IRON FURNACE

Two damage suits were filed in circuit court.

James S. Underwood sues the Princess Furnace company, of St. Louis, for \$13,100 damages for personal injuries. Underwood was employed by the defendant in dismantling the iron furnace at Third and Norton streets, and a lot of timber fell on his head. He alleges that he has been permanently injured.

T. J. Sanderson sues the Princess Furnace company, of St. Louis, for \$1,900 damages for personal injuries. While assisting in tearing down the iron furnace at Third and Norton streets, in the employ of the defendant, he had his arm broken.

OPERATIVE'S HAND TORN OFF BY THE MACHINERY

Joseph Hutchinson, 49 years old, residing on North Twelfth street, lost his right hand this morning through an accident at the Cobankus Manufacturing company's plant. Eighth and Boyd streets. He was working with a machine supplied with spiked rollers, and his right arm was drawn into it. The spikes tore and lacerated his arm, tearing fingers off and flesh from the bones of the arm. Hutchinson was taken in the patrol wagon to Riverside hospital, where physicians amputated the hand.

ENGINE WATCHMAN WAS SCALDED IN ENGINE CAB

Charles Sanders, a young engine watchman at the Illinois Central round house, was seriously scalded last night between 8 and 9 o'clock. He was keeping up steam on an engine being assigned to an extra train. The injector became defective and began to emit steam and scalding water. Sanders felt the hot steam strike his right knee, and through the blinding vapor groped his way to the opening and jumped from the cab. His injury was dressed at the hospital. Sanders will be disabled from duty two weeks.

Col. Will S. Hays, Who Claimed Dixie, Dies at His Louisville Home

Louisville, Ky., July 24.—Colonel Will S. Hays, the veteran river editor of the Courier-Journal, song writer and poet, died at his home here last night of vertigo caused by a stroke of paralysis, suffered in the Illinois theater fire in Chicago. He was 70 years old. Colonel Hays has always claimed the authorship of the original words of "Dixie" and that he was responsible for the arrangement of the music. His version of "Dixie" was written at the outbreak of the Civil war, but the words were considered so seditious that the writer was arrested and compelled to change them. By that time, it is said, Dan Emmett, the minstrel, had written his song and his publisher had it copyrighted. Colonel Hays' most famous song was "Molly Darling," the sales of which reached 2,600,000 copies in Europe and America. Among his other songs were: "Keep in 'De Middle of De Road," "The Old Log Cabin in the Lane" and "Signal Bells at Sea."

NO DECISION IN HUGH BOYLE CASE

Judge Reed Takes Answer of
Mayor Neiser Under Advice
and Will Decide Injunction Tomorrow

WHAT IS DISCLOSED IN ANSWER.

Another postponement of the decision in the injunction proceedings instituted by Hugh Boyle, to restrain Mayor Yeiser from revoking his license to sell liquor at Fourth street and Kentucky avenue, was had this morning, and Judge Reed will consider the answer of the mayor and such other pleadings as have been submitted, and hand down his decision tomorrow morning. In his answer Mayor Yeiser says within a minute after the conviction of Boyle in the police court of Sunday selling, he served the notice of revocation on Boyle, and it was an hour after that before appeal from the police court judgment was perfected and the same length of time before the temporary restraining order was served on the mayor.

Preparations for the "Eighth." Lunch stand operators are preparing for "The Eighth," and have rented ground all around the Illinois Central yard office at Eleventh street and Broadway. This is a favorite place for such business, as all trains are unloaded at Eleventh street and Broadway.

North Carolina May Attempt to Impeach Circuit Judge Pritchard

Washington, July 24.—A bitter judicial contest is being waged in North Carolina between the state and federal authorities over the method of enforcing the state railroad rate law, and will probably lead to an attempt to have Circuit Judge Pritchard impeached. Intimation was received here that immediately after the next congress assembles formal charges will be preferred against Pritchard.

GEN. TYLER SEEKS HIS VINDICATION

Charges That Mrs. T. J. Latham, of Memphis, is No True
Daughter of Confederacy
She is Positive

HE COMES HERE IN HIS QUEST.

General H. A. Tyler, of Hickman, is in Paducah, seeking information which will once and for all settle a controversy, which has stirred up the daughters of the Confederacy at Memphis, Hickman and Paducah for several weeks. He expects to complete his work and return tomorrow. During the war many Paducahans were exiled from the city because of their attitude toward the Union. Mrs. T. J. Latham, a prominent Memphis society matron claims to have been one of this number, which is denied by General Tyler. A controversy, involving Paducahans and the printing of letter after letter in the Memphis Commercial Appeal, aroused members of the order, and so firmly does Captain Tyler believe that Mrs. Latham is wrong, that he has come to Paducah to seek old residents who will know, and learn the truth. He objected to her participation in functions of the W. D. C., because he says she rode in Union parades and used permits from the Union officers.

WINDS CAUSE DAMAGE IN MARSHALL COUNTY

Benton, Ky., July 24.—(Special)—Wind, rain, hail and lightning made things lively around Benton yesterday afternoon. The rain did good and the hail was too scattering to do damage. But the wind moved one end of R. J. Fisher's tobacco barn, a mile northwest of Benton, slightly. Two cows, belonging to Lucien and Z. Burnham, at Glade, were killed by lightning.

White Pickpocket Escapes.

While J. W. Egester, a colored attorney in the city, was standing at the Union station today at noon he felt a tug at his watch, but calmly replaced it in his pocket, and never noticed any attempt of a pickpocket to get it. Patrolman Aaron Hurley stepped around the corner just as the attempt was made, and a white man on seeing him ran into the woods.

Council's Error Makes Flood.

Madrid, Ia., July 24.—Because the ordinance providing for a new sewer system was found illegal, the city has closed the system, flooding the basements of residences and business houses.

THIS DISTRICT IN CONFERENCE

Over Hundred Methodists
Visit Clinton

The Rev. J. W. Blackard and All
Ministers, Excepting One, Are
in Attendance.

SERMONS BY PADUCAH MEN.

Clinton, Ky., July 24. (Special)—Clinton is doing herself proud in taking care of the hundred or more delegates to the Paducah district conference to the Methodist church, South. The Rev. J. W. Blackard, presiding elder, is presiding and all the ministers, excepting one, are present. The conference opened on time yesterday afternoon, with an address in behalf of the home for superannuated ministers, by the Rev. H. B. Johnson, of Union City. Hon. Jerry Porter delivered the address of welcome, which was responded to in the same happy vein by the Rev. G. W. Banks, of the Trimble Street church, Paducah.

The opening sermon last night was preached by the Rev. T. B. Ramsey, the veteran pastor of the Mayfield circuit, on "Let Your Light so Shine." The sermon this morning was preached by the Rev. W. T. Bolling, of the Broadway church, Paducah, on "Foundation of the Church," a sermon which aroused the highest degree of enthusiasm. Tonight there will be an educational rally led by the Rev. W. J. McCoy, of Martin, Tenn.

The Rev. H. B. Yates was received from the Cumberland Presbyterian church, and the Rev. H. C. Yates from the Baptist church. Thomas Woodruff, of Paducah, was licensed as a minister.

RETURNS TO OLD HOME AND IS DRIVEN AWAY

Samuel, alias Harry, Grogan, a Paducahan, who has been out of the city for several years, returned two days ago only to be fired out shortly after arrival. Chief of Police James Collins gave him just 20 minutes to get out of town this morning, and he took advantage of it, leaving for the railroad yards at double quick time. Grogan is alleged to have touched Samuel J. Vaughan, a Lola, Livingston county man, for \$20 Monday night. Vaughan informed the police that the boy, who robbed him went by the name of Harry Grogan, and that he met him in Missouri only the week before. Vaughan had left town and there being no evidence against Grogan, Chief Collins decided it would be better to rid the town of his presence. He spent the night in the city jail.

NEARLY FIVE HUNDRED GO ON S. S. EXCURSION

Nearly 500 attended the picnic of the First Presbyterian Sunday school at Alto park yesterday and an excellent time without accidents was enjoyed. A special train carried the party out and back. The only incident to mar the occasion was when Miss Clara Bader, of 1014 South Twelfth street, was overcome with heat. She is the daughter of Mrs. Joseph Vogt. Today she is able to be up.

TYPOS INSTALL THEIR OFFICERS FOR A TERM

The Typographical union yesterday installed officers as follows: President, E. M. Willis; vice president, W. N. Cabell; secretary-treasurer, J. E. Baker; sergeant-at-arms, Martin Kelley; delegates to Central Labor union, E. M. Willis, John U. Robinson and Al E. Young.

AMERICAN PLAN

FOR COLLECTION OF DEBTS IS ADOPTED AT HAGUE.

Venezuela Calls for Union, Because of Drago Doctrine Rejection.

The Hague, July 24.—Dr. Ruy Barbeza, (Brazil) at today's session, committee on arbitration, delivered a long speech supporting the American proposal regarding the collection of contractual debts and opposing the Drago doctrine. Baron Marshall Von Mistaken, of Germany, then delivered an able speech on arbitration in general approving the American proposal. Speaking outside the conference today President Nelidoff said it was necessary to accomplish as much work as possible before August 1 as a majority of delegates wish to leave by that date.

Sensational Demand.
Caracas, Venezuela, July 24.—Suggesting that Spanish-American republics meet in congress to proclaim the Drago doctrine, now that the powers have ignored it at The Hague, a correspondent of the official government newspaper, El Constitucional, is a presumably inspired article, sounds a note for "Union against a common enemy; against the ambitions and egotism of the strongest." The article caused much comment in Caracas, because published on the day following the presentation by Minister Russell of Secretary Root's second note to Venezuela in which it says Castro's refusal in the demand for arbitration in five American claims is unacceptable. The United States is alluded to in connection with the annexation of Texas and the independence of Panama when the writer says:

"We have seen English, German and American warships off the Venezuela coast. In this way territory has been seized from Mexico and Colombia. Foreign interests are influential today in Ecuador, Central America and perhaps tomorrow will be in the whole continent."

RIVER NEWS

Business was good today at the wharf, and several steamers were receiving local freight for customers up the river. The river rose in the last 12 hours.

Workmen and Superintendent Taylor of the dry docks, are indignant at the refuse that is dumped into the river above the city and floats down stream. Much of it gets in among the dry docks and hinders the workmen until they dislodge the cause. The parties are unknown. This morning a large ham had floated against the docks.

The Riecke launch, "Marjorie," has been placed into the river off the dry docks, and she is in first-class trim. The boat presents a neat appearance, and has good speed.

The Joe Fowler was the Evansville packet today and business was rushing on this trip.

The Clyde will leave this evening for the Tennessee river with a good load of freight. The passenger list was crowded. This is Captain Wright's first trip out since he returned from the east.

The Nellie was let into the river yesterday afternoon, as good as new, and after steam was raised left for Metropolis.

The C. M. Pate will be finished today and let into the river and in her place a barge of the American will be taken on for some repairs. The American will be taken on when the

CAN'T BE SEPARATED.
Some Paducah People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache. If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong healthy kidneys.

Thomas Housman, of 1143 North Thirteenth street, Paducah, Ky., says: "Doan's Kidney Pills which I procured at DuBois Son & Co.'s drug store a few months ago have done more for me than any other medicine I have ever taken for lame back and kidney trouble. For a time my kidneys were so bad that I was not able to work and was under the doctor's care for some time. I finally got relief and went back to work but I suffered most of the time with my back until I began using Doan's Kidney Pills. They gave me relief in a short time and now I feel as if I could not do without them in the house. A few doses taken now and then keep me free from pain, no lame back and I am able to work every day without suffering. It is a great comfort to know of a remedy that can be relied upon and I know that Doan's Kidney Pills are such."

What to do in Dyspepsia

Dieting has become a great fad in America, and just as, years ago, we as a nation, over-ate, so now we are under-eating. The one is as bad as the other. Man needs food and plenty of it to sustain life and to give strength to compete in this busy world.

It is not, however, the fact that you may eat too much that hurts you, but that you don't digest what you eat. And if that results in dyspepsia you will not cure the trouble by cutting down your food supply. If your digestive organs were creating the proper amount of gastric and pancreatic juices you would have no dyspepsia. To cure the disease you must create an abundance of these necessary juices.

This can only be done by a reliable tonic laxative and, as its name indicates, Dr. Caldwell's Syrup Pepsin contains the very ingredients needed to do this. "Take it regularly for awhile and you will see the effect on each bottle and you will soon be cured of dyspepsia and any of the accompanying symptoms such as heartburn, sour stomach, bloating, constipation, indigestion, loss of appetite, etc. Every bottle carries with it an absolute guarantee to do what we claim. It is a gentle, pleasant, effective laxative and you will like its taste and be pleased with its action."

One of the great friends of this remedy is Harry F. Keator, a Lieutenant in one of the Chicago companies that fought at the battle of Saratoga. While in the war trenches, and eating the rough food of a soldier, he contracted severe dyspepsia and lost weight rapidly. A friend in the regiment called his attention to Dr. Caldwell's Syrup Pepsin, which he promptly began to use. It not only cured his dyspepsia but increased his weight 42 pounds.

Your druggist will sell you a bottle at 50 cents or 8 and you will find it worth a hundred times that to you.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by mail. This is the only way to prove that the remedy will do as we claim, and is only sent to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. St. Louis Globe-Democrat says: Should the investigation of the wrecking of the steamboat Tennessee against a pier at Eads bridge, Thursday, being conducted by the United States steamship inspectors, disclose negligence or cowardice on the part of Mate John Lehnhard or Pilot Anthony Burbach, both men will be compelled to surrender their papers.

Capt. Wm. Young declared before the committee that he would have shot the pilot dead had he had a gun. He also censured the mate, and by implication charged that the cowardice of the two men was responsible for the accident. Capt. Young is said to be the only officer of the boat who stayed by his post when the steamer damaged the pier. Pilot Burbach is charged with leaping from the boat to the pier and climbing to the railroad tracks above. Mate Leonard is also charged with leaping into the river and swimming until rescued.

Official Forecasts.
The Ohio at Evansville and Mt. Vernon will rise during the next three days. At Paducah not much change during the next 24 hours. At Cairo will continue rising during the next 24 to 36 hours.

The Tennessee from Florence to below Johnsonville will probably continue falling slowly during the next 24 hours.

The Mississippi from below St. Louis to Cairo will continue rising during the next 24 to 36 hours.

The Way It Read.
The editor of a little western paper was in the habit of cheering up his subscribers daily with a column of short pertinent comments on their town, their habits, and themselves. The department on account of its intimate personal flavor was the most popular thing in the paper.

The editor, as he saw it growing in favor, gradually allowed himself a wider and wider latitude in his remarks, until the town passed much of its time conjecturing "what he'd say next."

On a hot day, when the moon whistled gaily up the streets of the town, depositing everywhere its burden of sand, the editor brought forth this gem of thought:

"All the windows along Main street need washing badly."

The next morning he was waited on by a platoon of indignant citizens who confronted him with the paragraph in question fresh from the hands of the compositor and informed him fiercely that he had gone too far. After a hasty and horrified glance he admitted that he had.

It now read:
"All the windows along Main street need washing badly."—"Under the Spreading Chestnut Tree," in the August Everybody's.

"I thought you said your son was proficient in three languages?"
"He is. He can talk stage slang, baseball slang and slang."—Chicago Record-Herald.

STENOGRAPHERS

ARE WANTED BY UNCLE SAM IN HIS BIG CITIES.

Civil Service Examiners Instructed to Secure Applicants—Other Examinations.

Out of Paducah's horde of stenographers and typewriters, is there one who wants a good job with Uncle Sam?

The answer will come August 7 when an examination for this position is held here by the civil service examiner. Uncle Sam wants stenographers and wants them badly. He has taken special pains to send out circulars urging each examiner to drum up as many applicants as possible. There are 42 vacancies for males and two for females in various departments to be filled in 12 of the largest cities in the United States.

Other examinations ordered for this district are: Aid in grain standardization (male), August 21; marine fireman, quartermaster's department at large, August 22; knife grinder, government printing office, August 22.

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science.

It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 324 West 32nd Street, New York City, writes:—Dear Mrs. Pinkham:—If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases, Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex **Lydia E. Pinkham's Vegetable Compound** is excellent.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

Magnitude of American Tobacco Co. Made Public by Government

Washington, D. C., July 24.—An examination of the petition recently filed by the government in the case of the United States against the American Tobacco company and others apparently confirms the magnitude of the operations of this company which has never before been made public. The defendant concerns, which are alleged to be owned or controlled by the American Tobacco company, with the exception of the Imperial company, have a capitalization and bonded indebtedness of more than half a billion dollars. As the internal revenue bureau keeps tab on the purchase of all leaf and the output of all manufactured tobacco, the figures in the petition are official. They show that of the entire product of the United States in smoking and plug tobacco during 1906, amounting to 363 million pounds, the defendants produced 282 million pounds or 7-9th of the whole. Of the 23,000,000 pounds of snuff, they produced 22,500,000 or almost 95 per cent. They manufactured four billion 900 million cigarettes out of the six billion 329 million total; 965 million out of 995 million little cigars and 747 million cigars or slightly more than 10 per cent. The report for the year 1906 for the American Tobacco company alone, shows preferred stock of 78 millions, common stock 40 millions 6 per cent bonds 55 millions and 4 per cent bonds 61 millions of dollars in round numbers. The dividends on the preferred stock amounted to 6 per cent and on the common stock to 22 1-2 per cent and \$6,754,231 was carried over to the surplus which amounted to \$30,500,000. The total assets of the company are given as \$278,628,564.

Railroad, It Is Said, Agreed to Pay
\$10,000 to End Strike.

Louisville, Ky., July 24.—J. D. Buckalew, of Washington, D. C., ex-vice president of the International Association of Machinists, created a sensation during a meeting of machinists here today by declaring that he had been approached by an alleged representative of the Louisville and Nashville railroad who offered him \$10,000 to call off the strike now on in the local shops of the company. J. A. McDowell, business agent of the local union, was concealed when the offer was made, and has sworn to an affidavit containing the charges. B. M. Starks, general manager of the road, denies the charges.

WHY NOT JOIN THE Income Extension SOCIETY?

Your salary, wages, fees, commissions—no matter in what guise your income reaches you—should not entirely "satisfy" you. You should be alert to "piece it out", to extend it. For that is merely "making the most of it."

"THE INCOME EXTENSION SOCIETY" is purely a fictitious name for a very real and very active class of people in this city—THE PEOPLE WHO USE THE CLASSIFIED ADVERTISING COLUMNS OF THE SUN.

Some of these "income extenders" use the classified ads. for securing better employment, with higher wages. Some of them find them useful in securing private pupils for otherwise idle evenings. Some secure tenants, boarders, roomers, buyers for the not-used things in the house.

If you will look over the classified columns of THE SUN today you will get a hint of the sort of people who believe in "income extension" and how they go about the matter.

Japan Publishes To World Promise of
Abdication To Sustain Her
Position.

RUSSIA IS CONSERVATIVE.

Seoul, July 24.—The cabinet's report to Marquis Ito of the former emperor's new pledge of abdication, was published and reversed the widespread impression that the first instance was not one of abdication, but of "imperial conformation." Ito's subservient cabinet, in an all night engagement with the former emperor, wrung from him a verbal admission of the validity of his abdication, secured his signature to a proclamation to the people, also an acknowledgment of the Mikado's congratulations to him as emperor de facto. The working members of the cabinet who enjoy Ito's protection, are passing in and out of the palace with a guard exclusively of Japanese. The work of the cabinet will not be finished until the emperor is exiled from Seoul. This, if accomplished without the poisoning of the deposed ruler, or some similar tragedy, will be a landmark in Korean history.

Viscount Hayashi, foreign minister of Japan, whose presence in Korea supports Ito, in an interview yesterday in the administration's paper, is understood to suggest a council of the state with power to act for the elimination of interference by the throne.

The censorship over the Japanese press correspondence is described as precautionary on account of the bitterness toward Ito's conservative course in reshaping the destinies of Korea. The theaters, amusement places and markets were open for the first time in four days. The situation in the capital is promising. Ito expects reinforcements of blue jackets from the Japanese warships.

Russia Conservative.

St. Petersburg, July 24.—The Russian press gives tardy expression today to views of the recent happenings in Korea. Radical newspapers content themselves with the publication of news dispatches.

The foreign office maintains a strictly neutral attitude based on the assumption that the abdication of the emperor was not accompanied by violation of the Portsmouth treaty. The foreign office considers, moreover, that the recent occurrences have in no way changed the hard facts, explaining that Japan has been absolute master of Korea for two years.

Great Place for Silk Worms.

All through the northern part of Italy the culture of silk worms is a great industry. This is probably due to the fact that the mulberry tree, the leaves of which constitute the food of the silk worm, requires for its perfect growth long continued warm, dry weather and thereby suffers in the rainy seasons of England and France.

Italy, with the eternal blue in her skies and perpetual warmth of her sun is an ideal climate for its propagation. In soil less rich and fertilized, the mulberry trees exhausts the earth so far as other vegetation exists, but in Italy the trees are used as supports to the grape vines. The branches are all cut off so as to shade the vines—the leaves fed to the worms and the twigs used for light firewood, so utilitarian is the Italian. In addition, there is a crop of grain between the rows of trees—thus every foot of ground is cultivated.

The first interesting feature is the manner of planting the mulberry trees as regards their mission in the vineyards. In Rome the grape vines are supported by a bamboo pole set up like that of a wigwam, but in central and northern Italy the useful mulberry trees are used—set out about twenty feet apart. They are allowed to branch once into five or six arms, these arms being kept an equal length all over the vineyard, only a few feet long and the stump of each arm is covered with young shoots that produce the food for the worms.

The tree increases only in its trunk. It is never allowed to grow tall. The grapevine is trained to grow to the point where the branches diverge, then is guided by a string to the next tree, so as to form festoons of vines from tree to tree all over the vineyard. All the sap from the roots goes into the comparatively few leaves that are allowed to grow and thus makes stronger fiber for the silk. It is said that when the food is poor or insufficient the quality of silk is apt to be coarse and adherent.

The cocoons which are to be kept to become butterflies next spring are held in cold storage until then, when they come out under proper treatment. The eggs are sold to farmers just as we sell grain. After the eggs hatch the tiny worm is put into a drawer-like receptacle, layers piled upon each other with plenty of space for air between and fed upon finely cut mulberry leaves.

The worm eats eight days then sleep one day, at which time the drawers are cleaned; then they eat another eight days, sleep one, eat still another eight days, when the space between the drawer is increased to a foot and branches are put up and down for them to cling to and begin their spinning of the cocoon.

The spinning apparatus is near the mouth and connected with the silk bags, which are long and slender and contain a liquid gum; they are closed below and end above in slender tubes, one on each side, which unite to form the single spinning tube. The silk thread is formed by the contact of the air with the liquid gum and elongated by the long glandular veins. Every thread of silk is made up of two distinct strands.

When the spinning process is finished the cocoons are sent in baskets holding several bushels to the village where there are silk factories.

The process of unwinding is very painstaking. The usual method is to throw the cocoon into boiling water, which kills the chrysalis. A more humane method is merely to steam them over boiling water, which softens the glue sufficiently to allow the unwinding of the silk and permits the moth to come forth alive from the interior layer and deposit the eggs or prepare for a new brood.

The unwinding is from the center and one worm spins about 100 yards of thread.

THE STATE SCISSORS GRINDER.

Washington, D. C., July 24.—Proceedings against the powder trust under the terms of the Sherman anti-trust act will be instituted at Wilmington, Del., the later part of the week. The suit for dissolution, which will embrace the receivership principle enunciated in the tobacco trust cases, will be filed by either Assistant Attorney General Russell or the United States attorney of the district in which Wilmington is located. A long list of defendants will be named in the government's bill. It is said that the case against the powder trust is the strongest of many prosecutions entered upon by the administration against the so-called "bad corporations."

Roads Quash Safety Aids?

Charges have been submitted to the interstate commerce commission to the effect that certain railroads of the country are purchasing patents to safety devices and appliances and then suppressing their manufacture. The matter is regarded as serious, inasmuch as the officials declare that the number of wrecks is increasing each year, and this despite the law requiring the use of safety appliances on railroad trains. Announcement is made in this connection that a thorough investigation will be made by the commission.

Scissors Grinder on List.

Washington, July 24.—The civil service commission has given examinations on pretty near every subject from gasoline engines to advanced anthropology, and from Hebrew literature back again to the cure of the botts in horses. But it wasn't until today that the commission put scissors grinders on the classified list. The examination will be held next week and will not involve severe mental strain. Ability to put a barber's shop finish on a pair of government shears and a razor edge on a government knife will count pretty near all the points. The personal appearance of the applicant will not be a determining factor, save when it seems to indicate a settled aversion to soap.

THIS SHEPHERD DOG CROWS EXACTLY LIKE A ROOSTER.

Stidham, I. T., July 24.—Bill Pullen, who lives two miles northeast of this place, has a shepherd dog that crows like a rooster.

This strange inclination the dog has had since he was a puppy, and he can imitate a rooster to perfection.

The inclination to crow seems to be just as natural to the dog as it is for him to bark, and every time a rooster flaps his wings and crows the dog will invariably answer with a crow that cannot be distinguished from the real rooster article.

The dog was raised by Dick Patter son and was never trained to crow.

How to Abolish Loan "Sharks."

There is only one way to do away with the "shark." That is, to abolish the need of him. Laws against usury neither abolish poverty nor relieve it, and consequently the "shark" remains to supply the demand for his presence. The more risky the laws make his presence the higher his charges must necessarily be and the worse the plight of those who need him will become. Charity loan associations can not help those most in need of aid and at the same time remain both charitable and self-supporting. But these are facts which the average supporter of charity does not want to see. If he did, he would abandon his clearly futile attempt to strike at symptoms, and join his efforts with those who are trying to destroy the cause of poverty and so succeed in doing away with the need of both charity and "sharks." Paris, July 24.—Gil Blas is responsible for the sensational statement that it has been discovered that a former private secretary of the present minister of justice, M. Guyot-Dessaigne, at one time conducted a scandalous traffic in public offices, decorations and pardons.

According to the newspaper, which promises to publish the names of the parties concerned, a number of important personages, including M. Guyot-Dessaigne and some of his friends and relatives, are implicated. Investigate for Week.

Continuing, Gil Blas says that M. Bouchard, an examining magistrate, has been conducting an investigation of the affair for one week, and that the "confrontation" of the witnesses will take place tomorrow. The paper says also that the private secretary in question has confessed.

The publication of these charges has created a great stir, and recalls the notorious affair which compelled M. Grevy to resign in 1887.

Refer to Old Scandal.

The Temps, however, assumes that the revelations made by Gil Blas refer to the old affair of M. Chaumie, who was minister of public instruction in the Combes and Rouvier cabinets and who sued the Matin for defamation of character. M. Chaumie has been interviewed on the matter and he declares it is ridiculous to speak of a repetition of the Wilson scandal. He says that neither he nor his sons are involved. M. Chaumie declared also that his brother-in-law

THE INSTITUTIONAL CHURCH.

The institutional church has been the practical thought in several sermons preached recently by the Rev. W. T. Bolling, and this suggestion of a Christian worker of the years and experience of Dr. Bolling may well be applied to the charge that the church of today is not fulfilling its functions. In other words, that it is "not keeping up with the times;" not meeting the demands of modern requirements. There is nothing disrespectful in this charge. The church organization, even the most conservative, has changed materially several times during the centuries.

The principal fault laid against the church is, that it has lost its hold on social life. That is a serious thought. The social life of the world is our life at play. It is during social hours the character of our pleasures is determined. When the church loses its hold on our social pastimes, we have only the material considerations of commercial life to restrain us from the natural inclination of the human heart to excesses. This is the view of those churchmen who express alarm at the condition as they see it.

Unquestionably, in this country, especially, the spirit of individualism has begotten a consideration for the individual, that demands more attention to his bodily welfare. We are self-reliant in this age. We are

development of institutions which, if not designed, are so conducted as to be practical substitutes for the church.

Whether realizing it or not, people have found the church does not always meet the practical requirements of city life, and various organizations of women and men, have taken onto themselves the operation of charitable and eleemosynary institutions, college settlements and such like ventures. Some times, where these were expected to be close to the church, they have become practical substitutes, while lacking in every detail that spirituality, which has perpetuated the church for all these centuries.

It is for the purpose of making the church the center of social life, and the hub around which charitable organizations and like institutions radiate, and to direct the work of their promoters into channels that lead to the church, that some ministers are now advocating the institutional church.

In this view, perhaps, the Chicago divine, who told the divinity students that the day of the preacher is past, and that the church demands workers and organizers, was wholly right.

Well, you had one night's sleep.

Imagine a man so lost to gratitude as to get a cold drink on Sunday and then "turn state's evidence."

There will be no question raised as to the judgment of the Chicago paper, which offered a prize of \$5 to anyone giving the best reason, why he needs the \$5. The winner is a boy, 11 years old, who told of poverty, which prevented the best pitcher of their team taking a trip with the other boys, and concluded with the statement that if he had \$5 he would buy a ticket for the pitcher. Any man, who was ever a boy, would have to concede that it would be a dire case, indeed, which would exceed the pressing necessity here represented.

It's nip and tuck between the price of wheat and the mercury.

Japan has one advantage over America in the handling of her dependencies. She is not bothered with any conscientious scruples, and is frankly exploiting Korea for her own advantage.

Before long the "German vote" will be a factor in McCracken county politics.

Now, here's a fellow in Trigg county, who said he joined the tobacco association to keep from being abused, and got shot for talking too much. We see more justification for the assault in his case than in most of the others. Our observation has been, that if a man possesses a discreet tongue and applies himself assiduously to his own business, he is pretty safe in any community. Of course, we do not know what provocation there is for these outrages in Trigg county. Sympathy naturally centers around the most aggrieved party, especially when the attack is cowardly, as are all these night riding escapades. Perhaps, the provocation is minimized in the reports and the outrages magnified; but even, at that, it is not a sense of loyalty to the organization that prompts such conduct. It is brute instinct; and we yet have hopes that identification of one or more of the night riders will be made possible ere long through the records of the coroner's office.

Hon. Con Lynn, of Calloway county, says he will be re-elected to the state senate in spite of the fancied opposition, says the Mayfield Messenger. He voted against the "county unit" bill at the last session of the legislature and for this he is threatened to be defeated. There is a rumor that Capt. Stone may enter the race against Mr. Lynn. If he does there will be lively times in that senatorial district.

It is difficult to understand by what authority the police judge is compelled to remand cases against juveniles to the county court for trial. It is true, the juvenile court statute provides, that prisoners of a certain age, shall be tried in the juvenile court, but the county court is not a juvenile court, and the fact that the county judge is the judge of the juvenile court, when there is one, does not constitute any tribunal over which he presides a juvenile court. The county court neither in fact nor spirit conforms to the requirements for a juvenile court. This is not meant as criticism of the procedure adopted by Judge Lightfoot in cases of juvenile offenders presented before him, but every week there are cases, in which juvenile delinquents are remanded from the city court to the "juvenile court," when there is no such thing as a juvenile court in McCracken county.

Some Cambridge savant has photographed the canals on Mars. Wonder if they were built by contract or under direction of the war department.

BEST INSTITUTE
IN RECENT YEARS

No Discussion of Unimportant Matters

All Are Taking Interest and Asking Questions That Show Appreciation of Work.

SEVERAL VISITORS SPEAK.

The third day's session of McCracken county teachers' institute, like the second day, has been one of many beneficial features to teachers. Superintendent Billington is making every effort to make this the best institute ever held, and success so far is his.

Wrangling and debating over unimportant subjects, so conspicuous in former institutes, is not tolerated. Teachers are getting together in educational matters, and as a result much valuable time heretofore wasted is being utilized to an advantage. Another departure from the old regime is that teachers generally are taking an active part in all discussions, not requiring the instructor to do all the talking. The institute, as a result, is more like a big school. There is an absence of many old teachers who have taken an active part in the work heretofore. Those who have taken their places, however, exhibit progress to a marked degree, and are carrying the work through with great success and dispatch.

This morning several visitors were present, and speeches were heard from a few. Among those visiting today were Hon John Moore, La Center, former representative from Ballard, and also former superintendent of county schools there; Mrs. Addie Burroughs, Lamont; Miss Virgie Hudson, Melber; Prof. A. M. Rouse, city; Mrs. Iona Walker, city; Mrs. Muscoe Burnett, city; Mrs. H. C. Overby, city; J. P. McQueen, C. C. Morris and L. W. Feezor, city.

Morning Session.

The third day morning session began at 8 o'clock with devotional services by Mr. W. A. Middleton. This was followed by a recitation by Miss Nettie Perkins, who in turn was followed by Miss Dora Driffin in an excellent piano selection.

Hon. John Moore, of La Center, responded to an invitation to speak. He spoke a short time entertainingly on schools and education in general.

"Mr. E. B. Jett discussed thoroughly 'School Management, and the Code of Signals.'"

"Care of Blackboards and Desks" was a subject ably handled by Prof. J. W. Hughes, former superintendent of McCracken county. Prof. Hughes is still teaching, and his attention to buildings, desks, and school property have been the envy of others for years.

"Inspection of School Houses" was discussed by Superintendent S. J. Billington. Superintendent Billington has just built seven new schools for the county, and looked after the repairs of many others. Since he took charge the schools have shown a marked betterment in appearance and condition.

Prof. S. G. Boyd, of Dixon, who has been prominent in education in Georgia, spoke at length on schools in Kentucky as compared with those in Georgia. He stated that Kentucky

schools are far ahead in methods and results.

Prof. Boyd was followed by Mrs. Muscoe Burnett, of the Woman's club, who spoke on education in general and the introduction of special features.

"Ideals of Discipline" was a difficult subject very ably handled by Prof. H. C. Ellis.

Under the head of discipline, "The Means as an End" was intelligently discussed by C. B. Alexander. "Rules and Regulations" was a subject bringing forth much discussion, led by Lou Harper.

Before the adjournment this morning "Arithmetic" was taken up and "The Second Year in Numbers" ably explained in detail by L. W. Feezor. At 12 o'clock adjournment was taken until 2 o'clock this afternoon when the subject of "Arithmetic" was continued.

Tuesday Afternoon Work.

Tuesday afternoon proved a busy one, the following subjects being dissected thoroughly:

"Geography—What It Is," by George B. Orr; "Excursions," Miss Ada Long.

"History—What It Is," D. E. Wilson; "Value of History," Patti Chambers.

Writing.
"Preparations for Lessons," Miss May Nicholson.

"Devices for Forms," Bessie Billington.

"Practice Paper," Miss Zula Wren.

"Recitation—Causes of Trouble," Misses Gracie Hughes and Lillie Knott.

"Uniformity," H. E. Yarbrow and Miss Maggie Harrison.

"Time of Writing," Misses Nettie Perkins and Mae Young.

This completed the course in writing.

IMMIGRATION

IS BEING STUDIED AT CLOSE RANGE BY CONGRESS.

Committee Divides in Europe and Covers Whole Territory in Given Space of Time.

Berlin, July 24.—The members of the American immigration commission who, under the chairmanship of Senator William P. Dillingham of Vermont, came to Europe to make a thorough investigation of emigration conditions, are reuniting here preparatory to going down to Hamburg. They separated shortly after their arrival in Italy in order to cover the various countries in their territory with the least loss of time.

Representative Bennett, of New York, arrived here yesterday from Syria and today Senator Latimer of South Carolina and Representative Howell, of New Jersey, came in from Russia and Representative Burnette of Alabama, arrived from Eastern Prussia. Senator Dillingham and William R. Wheeler, of Oakland, are expected to arrive in a few days from St. Petersburg. The commission has gathered first hand, impressions of nearly every phase of the emigration question in Southern, Southeastern and Northeastern Europe, and it now proposes to look into the situation in Western Europe.

It was the custom of Senator Latimer, in his investigation to go into the country districts with an interpreter and talk with farmers and farm laborers, questioning them as to how much they earn and gathering information regarding the degree of comfort in which the live and the ways in which they work.

While Senator and Miss Latimer, Mrs. Howell and Phillip Burnette, son of Representative Burnette, were walking past a cafe on Unter Den Linden yesterday evening a man inside shot a woman, Young Mrs. Burnette at once ran inside, seized the murderer, and with the help of others, detained him until the arrival of the police.

PEORIAN HELD FOR \$36,000

THEFT FROM INSANE SISTER.
Peoria, Ill., July 24.—Frank K. Whiting, a member of one of the oldest families here, was arrested today in Los Angeles, Cal., on the charge of "indisapproprating \$36,000 from the estate of his insane sister, Mrs. Ella Farnham, of which he had been acting as conservator. The charge of larceny was preferred against him by the Fidelity and Deposit company of Baltimore, Md. Whiting was forced to resign the conservatorship a month ago.

Deputy Sheriff A. H. Thompson left for Los Angeles with requisition papers from Gov. Deneen. A message from Los Angeles says that Whiting will resist requisition, but the local officers are certain they will be able to bring him back.

Dr. Cowles Leads Climbers.

Ashford, Wash., July 24.—Members of the university party made the first ascent of the season to the summit of Mount Rainier, headed by Dr. Henry R. Cowles, of the University of Chicago. There were several New Yorkers included in the party. Some of the members were bruised with falling rock fragments. The weather was ideal.

Comfortable Shirts

The man with a comfortable shirt is pretty sure to be comfortable all over.

It doesn't take an expert to tell when a shirt is comfortable, but it takes an expert to make one comfortable. It has to be roomy, well-shaped, well-sewed; the sleeves aren't be too long, the collar must not be cut too low or too high.

When a man once finds a comfortable shirt, he comes back for the same brand, year after year.

Some even get to know the kind of box they are packed in and won't look at the shirts at all, if they don't see the right box.

Selling the Best of Shirts

Brings us more business every season, lets us buy more shirts and, consequently, we sell better shirts than we did the year before.

Don't think you can duplicate anywhere the shirts we are selling for

RIVALS FIGHT WITH AUTOS;
MACHINES BROKEN IN JOUST.

Columbus, Ind., July 24.—Mounted in automobiles, instead of on horses, and clad in linen dusters and goggles instead of armor, George Mediam and E. E. Raymer, employees of rival automobile firms, jousting in the streets of Columbus today. The results were two badly battered cars and a black eye to Raymer.

The challenge was passed when Mediam drove close by his rival's machine, and Raymer called to him to be careful. This angered Mediam, who backed his auto into the other and scratched the paint. Raymer sprang into his machine and started the engine, and the two began bucking each other.

The chauffeur played for an opening and Mediam tried a broadside. He came away with some of the other's paint, and both went to their corners. Mediam thought the old style fighting too slow and jumped for the front of the other machine, landing beside Raymer. He drove a right to Raymer's eye, cutting a gash in his cheek. The police then appeared and stopped hostilities.

Transports Sought by U. S.

Tacoma, Wash., July 24.—The steamship Tremont has just been inspected in behalf of the United States government. It is said that there

are at least fifteen vessels scheduled for inspection, the list including two American-Hawaiian liners and some of the Pacific Mail company's steamers. Reliable authority states that this inspection is being carried on by the government with a view of chartering the steamers for government transports, should occasion require it.

WINN IS ENGAGED.

Western Racing Man Engaged to Engineer Empire City Meet.

New York, July 24.—The Empire club announce that it has secured the services of Matt J. Winn as manager of the meeting. Winn is a tailor by trade a creation of Edward Corrigan, president of the American Turf association, and manager of Churchill Downs track at Louisville, and manager of both courses at New Orleans.

Rain in the County.

Sections of McCracken county received a good rain yesterday afternoon about 5 o'clock, and other sections were remembered with only a sprinkle and a little wind. Ragland had a heavy rain, and today the crops look refreshed. A good rain fell at Little Cypress and for 15 minutes hail fell in large lumps. Little damage was done to tobacco by the hail. Maxon Mills is still dry, as the sprinkle yesterday afternoon did not settle the dust. It has been three weeks since any rain of value has fallen and crops are burning up under the hot rays of the sun. Farmers are discouraged. Kevill reports a nice sprinkle that cooled the air and made a cool night for sleeping, and a light wind with no damage. Farmers at Melber had a good rain, and crops are showing the result today. With the rain at Sharp a light hail fell but no damage is reported more than the blowing down of corn.

CHICAGOAN FOUND MURDERED.

Adam Corros Supposed to Have Been Killed for His Money.

Gaylord, Mich., July 24.—The body of Adam Corros, about 20 years old, who came from Chicago about two weeks ago with a party of men to take the place of some striking lumbermen, was found today in a lonely spot near Boyne falls, along the right of way of the Grand Rapids and Indiana railroad. He had been murdered. The body was lying in a small pool of stagnant water, face down. The ground indicated there had been a fierce struggle. His clothing was badly torn and his pockets turned inside out.
Saturday morning some of his party left the lumber camp for Boyne Falls to return to their homes, being dissatisfied with the conditions there. When they arrived at that village some of them imbibed quite freely, and, it is supposed, spent all their money. Corros, who appears to have been of a quiet disposition, kept his, and it is supposed that when his companions ran short they sought means of obtaining more. Sheriff McWain is trying to locate them and will round up the whole gang.
There seems to have been trouble brewing for some time, and this may be the climax of the strike, as a road boss on the railroad was shot and badly wounded last week by some of the strikers.

Now Believes Barrel Joke.
St. Louis, Mo., July 24.—Charles L. Newcomb, vice president of the Newcomb Brothers Wall Paper company, knows how it feels to be abroad in the land without any trousers. Mr. Newcomb's trousers were purchased today while he was swimming, and he went home in a barrel.
Business along the route was suspended while Mr. Newcomb was homeward bound. The distance he traversed was half a mile.
Later he found the trousers nailed up near the pool with "For Sale" placarded on them.

Call Extended to Lexington Minister.
Hopkinsville, Ky., July 24.—The congregation of the Ninth street Presbyterian church met at the close of the service Sunday night and entered into the election of a pastor by ballot. Rev. C. H. H. Branch, pastor of the Maxwell street Presbyterian church, of Lexington, was unanimously elected on the first ballot and the elders and deacons were ordered to prepare and sign a call to be submitted to the Presbytery as soon as Mr. Branch should signify his willingness to accept the call.

Hon. Charles K. Wheeler went to Murray this morning on professional business.

Lindsay Napier.
Lindsay Napier, 45 years old, of Rockport, died at the Illinois Central hospital this morning at 4:30 o'clock, the result of an operation performed last week. Napier was employed in bridge construction and team contracting at his home. Last week while lifting timbers he injured himself internally. Although not an employee of the railroad, he secured admission to the hospital, where the best of treatment could be secured. He rallied after the operation, but two days ago began to sink. Feeling that his case was hopeless, his wife was summoned and was at his deathbed. Napier leaves a wife and five children. The body will be taken to his home tomorrow morning for burial.

He was a member of the Red Men, and the funeral will be conducted by the lodge at Rockport.

The Barbers' Injunction.
Mr. Walter Frakes, member of the state board of barber examiners, left today for Bowling Green and Henderson to examine the barbers in the cities. Today he received a letter from another member of the board explaining the action of the Lexington barbers. Their attempt to avoid paying the license went against them in the lower court and they have appealed to the court of appeals which will give its decision July 29.

Gets 150 Days in Jail.
"Buff" Robertson, colored, was fined \$50 and costs in two cases and \$25 and costs in another yesterday afternoon by Magistrate Emery. He was fined for carrying concealed a deadly weapon, for firing a pistol in the city limits, and for flourishing a pistol. The fines assessed yesterday will keep Robertson in jail 150 days unless he pays out, which seems unlikely.

"Little Mothers" Made Happy.
New York, July 24.—Frank Tilford, of the well known firm of Park & Tilford, took a unique way to celebrate his birthday. He invited 760 "little mothers," poor girls who bear some of the burdens of their families, to take a trip to Cooney Island, where they were introduced to the wonders of the resort at Mr. Tilford's expense. The celebration was a pleasing success both to Mr. Tilford and his guests.

Theresa Schwab, et al., to T. H. Bridges, property in Fountain park addition, \$600.

W. D. Greer, et al., to T. H. Bridges, property on Ellis street, valuable considerations.

Police Court.

Jay Austin, for being drunk and disorderly on Broadway last night, was fined \$25 and costs in police court this morning.

Elvin Jeffries, charged with disorderly conduct, warrant fled away.

Other cases: R. B. Barnes, drunkenness, \$1 and costs; Mollie Harmon, colored, breach of peace, continued; Fin Hamilton and Frank Trimbler, breach of peace, continued; George, alias Patty, Brown, colored, breach of peace, continued.

In Bankruptcy.

Referee in Bankruptcy E. W. Bagby this morning issued an order directing Cecil Reed, trustee for the creditors of the E. Rehkopf Saddlery company, to turn over to A. E. Boyd, trustee in the E. Rehkopf case, \$470 collected for rents on the Second street storage warehouses.

Referee Bagby decided that the money should go into the individual estate, a point which had been in dispute several weeks.

Certificate Is Missing.

A certificate of deposit for \$3,500 to J. H. Borders is lost, and is causing no end of confusion in county court. This afternoon an order was made by County Judge R. T. Lightfoot, the last effort to learn the whereabouts of the certificate. Until the certificate is produced, the money shall remain intact, says the bank.

J. H. Borders was about one month ago adjudged of unsound mind and taken to Hopkinsville from McCracken county. He lived in the Oaks neighborhood and stated the day before tried that he had this money deposited in a bank in Laurel county but lost the certificate of deposit.

F. G. Rudolph was appointed committee, and has been trying to collect the money without success. This afternoon Judge R. T. Lightfoot issued an order on Amanda Borders the wife, and Porter Borders, the son, to produce the certificate. They deny having it.

Basilica for Body of Leo XIII.
Rome, July 24.—The basilica, built from designs made by Sig. Tadolini, the sculptor, to hold the remains of Pope Leo XIII., formally was turned over to Cardinal Satolli this morning by the archbishop of St. John Lateran. The ceremonies were impressive. Eight cardinals, including Merry Del Val Rampolla, and Mathlen, were present; Cardinal Satolli delivered an address of thanks, in which he paid a glowing tribute to the late pope.

Darrow Pleads For Verdict.
Boise, July 24.—Attorney Darrow made an impassioned appeal for the defense in the Haywood trial today, and referred to Orchard in scathing terms, calling him a perjurer and murderer. "William D. Thoughts on Liberty.

Safety lies in the balance of power. People good enough for self-government have it.

The old world may be wrong, but it cannot be righted in a day. Independence in men or in nations is an achievement, not a bequest. Humanity enjoys more freedom today than ever before since the world began.

Every government exists by the consent of the governed, and people get about the kind of government they deserve.

If some men had not questioned the justice of the law and defied the law, there would be today no such thing as freedom.

The law in America is for the people, of the people, and by the people, and when this is not the case the people are themselves to blame.

We are all just getting rid of our shackles. Listen closely anywhere even among honest and intellectual people, and you can detect the rattle of chains.

For the first time in the history of the world, it is the general feeling of mankind that freedom of thought and speech is a good thing, and that the masses can safely be trusted with it.

No power is great enough to bind the mind—thought forever escapes. Give civil liberty to all, not by approving all religions, but by permitting in patience what Providence allows.—Elbert Hubbard in July Lipincott's Magazine.

It isn't any funnier to hear an engaged man making love-promises than it is to see a woman believing him.

SIXTEEN ADDED TO THE SURVIVORS

Ninety-Seven Columbia Passengers Not Accounted For

Story of Collision Graphically Related by One of Ship's Officers, Who Escaped.

OFFICIALS MAKE A DENIAL.

San Francisco, July 24.—Sixteen names were added today to the list of survivors of the Columbia San Pedro collision. These sixteen were in the boat which landed at Shelter Cove. The boat also contained two dead bodies. Mrs. O. A. Lewis, of Pasadena, Cal., and an unidentified man, presumably a sailor. The survivors now total 169 out of a reported total of 257 on board. Three bodies have been recovered. Ninety-seven are still unaccounted for. These added to the list of survivors today included B. B. Kriever, of Prescott, Iowa; Jacob Pure, of Coldwater, Kan.; Mrs. Kinkelblock Dunn, Poplar Bluff, Mo.; Miss Ruby Cooper, Fayette, Mo.

Official Makes Denial.

San Francisco, July 24.—Vice President and General Manager R. P. Schwerin, of the San Francisco and Portland Steamship company, asked today for an official statement regarding the Columbia disaster said:

"I do not see that there is anything I can say except to express profound sorrow and deep sympathy with those who have suffered. The steamship company is not, owing to interrupted wire service with Eureka, in possession of anything additional to that which has been secured by the newspapers. Formal inquiry into the disaster will be held by state officials entrusted with such duties.

Mr. Schwerin denied the charge that the wreck in a large measure was due to the habit of coastwise masters to "hug the shore," in order to save coal. He said:

"That charge is absolutely false, and nothing better illustrates its falsity than the fact that the Columbia was fourteen miles off shore. The extreme range of the lighthouse lamps is only 20 miles, and masters must be within that range to get bearings, especially in foggy weather."

Wire Interrupted.

San Francisco, July 24.—Communication with Eureka is still interrupted and no further details of the Columbia disaster have been received.

Story of the Wreck.

San Francisco, July 24.—Three officers of the Columbia who arrived here today on the Pemona, made statements under oath to inspectors of Hulls and Boilers Bolles and Bulger.

Second Officer Richard Agerupp said: "About 12:15 a. m. Sunday I heard a whistle on the starboard bow, and reported to the captain, who said he had heard it too. We kept the whistle going as did the other steamer. We were going full speed ahead, as shown by indicator on the bridge. The captain ordered me to blow two blasts. While blowing the second blast the other steamer answered with one blast. The captain then ordered full speed astern and soon after the steamers collided.

"Captain Doran shouted to the other steamer to stand by us. The first officer came on the bridge and the captain ordered him to take the bridge and me to take off the head covers and get the boats ready. By this time the ship listed to starboard. The captain ordered me to get the after life rafts adrift. While doing this I heard a whistle blow, and saw the bridge was nearly under water. I saw there was no time to spare, so threw a life buoy overboard, jumped over the stern. As I struck the water the Columbia disappeared. About thirty minutes later I was picked up in No. 10 boat by one of the quarter-masters.

Cured Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at all druggists, 50c and \$1.00. Trial bottle free.

Battle for Moroccan Throne.

Mellila, Morocco, July 24.—An engagement between forces of the sultan and of the pretender is in progress near here. Troops of the sultan are attacking the forces of the pretender from the land side, while the gunboat Sidi el Turk is bombarding them from the sea. The outcome still is undecided.

M. J. & K. C. LINE WILL COME NORTH

Where it Will Cross Ohio River is in Doubt

Official Interviewed in St. Louis Tells of Plans of Company as Far as Formed.

NEW ORLEANS AND CHICAGO.

The Mobile, Jackson & Kansas City will be the shortest line from St. Louis to Chicago to New Orleans and Mobile, according to President L. S. Berg, who was interviewed in St. Louis. He said that it will not only be a shorter route than the Illinois Central, but as finally constructed, will be even shorter than as computed in the plans which were mentioned several months ago.

Mr. Berg stated that the Mobile-Jackson is an independent line, not affiliated with any of the large systems, and that the company is at liberty to make whatever extensions it may deem best. The intention, which the former executive committee had was to build to New Orleans from Laurel, Miss., and to connect with the Chicago & Eastern Illinois at Jopka, Ill.

Connections.

"We shall build an extension from our northern terminus, Middletown, Tenn.," said Mr. Berg, "to the Ohio river, but we have not yet reached a decision as to the preferable point on the Ohio. There are several St. Louis and Chicago connections which we might make at the Ohio river, or at Thebes on the Mississippi river.

"It may be regarded as a certainty that St. Louis will figure in our plans I am and always have been impressed with the importance of St. Louis as a traffic center. St. Louis is rapidly becoming a greater factor in the territory traversed by our road.

"Although I have not studied out carefully the problem of extensions, I am sure that the Mobile-Jackson can be made the shortest line from St. Louis and Chicago to the Gulf of Mexico. Very little, if any, consideration will be given to the proposition concerning extensions until we finish improvements to the existing line.

"We have no terminals of our own in Mobile, as ours are at Frascati, about two miles out, but we shall be able, I am assured, to get into Mobile at any time on the tracks of the Mobile & Ohio. This is a question which will come up later on.

Improvements.

"Our roadbed and track are in good condition from Mobile northward for a distance of about 163 miles. We shall begin immediately to improve the roadbed and lay new track up to Middleton, Tenn. This work will take about six months, and then we shall determine on the problems regarding extensions.

"My object in coming to St. Louis was to contract for new equipment. We have ordered 1,000 new freight cars, ten new passenger coaches and twenty new locomotives."

Mr. Berg was asked whether the Illinois Central is, as has been reported, back of the Baton Rouge, Hammond & Eastern. He said that it is not.

"The Baton Rouge, Hammond & Eastern," he stated, "will be a connecting road for many lines in the south and southwest. It will be a serviceable connecting line for the Mobile-Jackson, although it will not do as a New Orleans route for the Mobile-Jackson."

"To Keep Well"

The whole year through," writes L. A. Bartlett, of Rural Route 1, Guilford, Me., "I and my family use Dr. King's New Life Pills. They have proven most satisfactory to all of us." They tone the system and cure biliousness, malaria and constipation. Guaranteed at all druggists, 25c.

of Valleys of Northwestern
Streams.

La Crosse, Wis., July 24.—The re-
ceding of the flood of Sunday and
Monday shows the damage in western
Wisconsin to be even greater than it
was at first reported. The grain and
hay crops of three counties are prac-
tically destroyed while in the villages
and cities the damage amounts to
hundreds of thousands of dollars.

East of La Crosse the damage will
take a week to repair, some of the
largest bridges having been washed
away.

Viroqua, the county seat of Vernon
county, has been cut off from the out-
side world, except by telephone, since
Sunday and will have no mail for a

Not a farm in La Crosse, Coon or
Upper Kickapoo river valleys escaped
damage. The damage to the five
railroads centering at La Crosse will
amount to hundreds of thousands of
dollars.

The fatality list was increased by
Charles Thompson, aged 9 years, son
of Mrs. Sam Olson, living between
Bristol and Pardy, Vernon county.
The boy was carried away on the

THREE THOUSAND CRIMINAL
CASES MAY NEVER BE TRIED.

Muskogee, I. T., July 24.—The an-
nual report of Leo E. Bennett, mar-
shal of the Western district, will
show that there are 3,000 criminal
cases on their records of this district
which have not been tried, and
which, in all probability, never will
be.

These are cases that have been ac-
cumulating on the dockets and can
not be pressed to trial. It is pro-
vided that these cases shall be trans-
ferred to the state courts when state-
hood comes, but lawyers agree that
such cannot be done.

The offense charged in all of these
cases is against the United States,
and the state cannot be offended by a
crime against the United States com-
mitted before the state shall have
been created.

The condition that exists in this
district exists in some degree in the
other three judicial districts.

Instinct and Intelligence.

"While it is, of course, a platitude
to say that a wise teacher learns by
instructing others," recently observed
an instructor in a preparatory school
in Brooklyn, "it is permissible to re-
mark that he frequently picks up
some curious information in this
way."

"I once asked a boy to explain, if
he could, the difference between ani-
mal instinct and human intelligence.
It was a pretty hard question, but
the lad was equal to it."

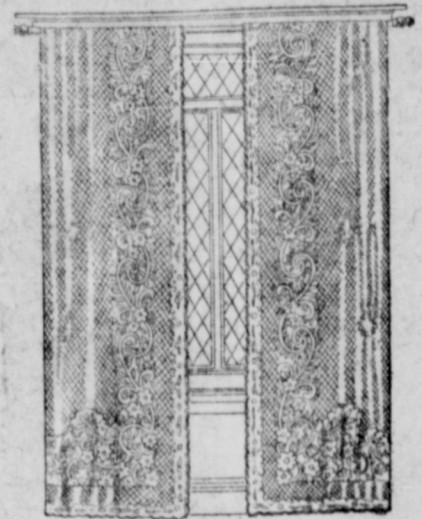

"If we had instinct," he said "we
should know everything we needed to
know without learning it; but we've
got reason, and so we have to study
ourselves 'most blind or be a fool.'"
